Swiggy Sales Report

16 October 2026 · Deepesh Srivastav

Summary

Swiggy earned ₹1,94,440 from 330 delivered orders between January and September 2026, an average of ₹589 per delivered order.

- **Biryani leads the menu.** It brings in ₹45,824, or 23.6% of revenue, ahead of North Indian at 19.4% and Pizza at 16.5%.
- **Dinner is the peak slot.** Dinner orders make up 36.2% of revenue; lunch adds another 26.5%.
- **Hyderabad is the top city** at ₹32,272 (16.6%), followed by Bengaluru and Pune. Lucknow is lowest at 8.1%.
- **Payments are mostly digital.** UPI covers 49.7% of orders, while cash on delivery is 14.9%.

Key metrics

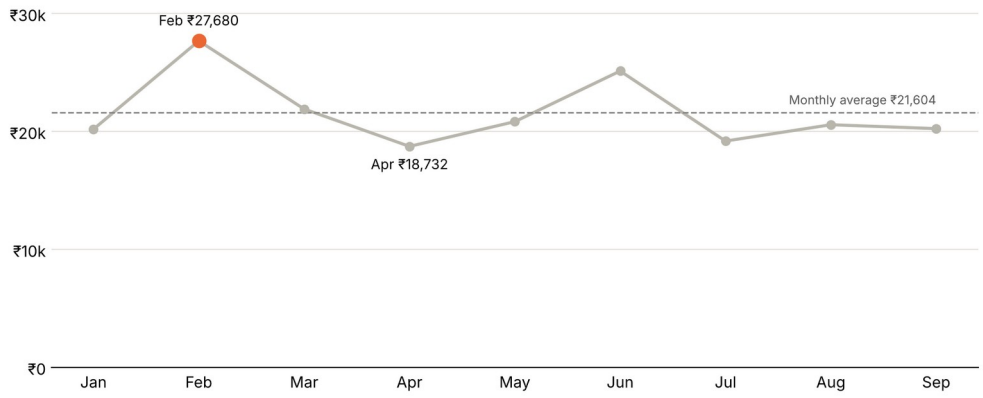

Of 350 orders placed, 20 were cancelled (5.7%); the rest were delivered in about 33 minutes on average.

Metric	Value	Basis
Total revenue	₹1,94,440	Delivered orders
Total orders	350	330 delivered, 20 cancelled
Average order value	₹589	Per delivered order
Average rating	3.93 / 5	Delivered orders with a rating
Average delivery time	32.9 min	Delivered orders
Cancellation rate	5.7%	20 of 350 orders

Revenue trend

February was the strongest month at ₹27,680 and April the weakest at ₹18,732; June (₹25,123) was the only other month well above the average.

Revenue peaked in February and dipped in April

Source: Swiggy_Sales_Data, delivered orders, January to September 2026

From July to September revenue held steady near ₹20,000 a month.

Where sales come from

Three cities (Hyderabad, Bengaluru, Pune) bring in 47.4% of revenue, and biryani, North Indian and pizza together bring in 59.5%.

City	Revenue (₹)	Share
Hyderabad	32,272	16.6%
Bengaluru	30,353	15.6%
Pune	29,466	15.2%
Delhi	27,056	13.9%
Mumbai	24,428	12.6%
Chennai	18,553	9.5%
Kolkata	16,495	8.5%
Lucknow	15,817	8.1%

Cuisine	Revenue (₹)	Share
Biryani	45,824	23.6%
North Indian	37,719	19.4%
Pizza	32,180	16.5%
Fast Food	25,990	13.4%
Chinese	21,454	11.0%
South Indian	19,703	10.1%
Desserts	7,198	3.7%
Healthy	4,372	2.2%

By meal slot, dinner leads with ₹70,361 (36.2%), then lunch at ₹51,602 (26.5%), late night at ₹30,401 (15.6%), snacks at ₹28,923 (14.9%) and breakfast at ₹13,153 (6.8%).

Payments and top restaurants

UPI is the most used payment mode, and the two biryani restaurants lead the restaurant ranking.

Payment mode	Orders	Share of 350
UPI	174	49.7%
Credit/Debit Card	89	25.4%
Cash on Delivery	52	14.9%
Swiggy Money	35	10.0%

Restaurant	Revenue (₹)
Biryani Blues	18,222
Paradise Biryani	17,298
Royal Rasoi	16,561
Oven Story	13,481
Punjabi Tadka	12,367
Pizza Palace	11,187

Recommendations

1. **Push dinner and lunch offers.** These two slots hold 62.7% of revenue, so timed discounts there reach the most orders.
2. **Grow the smaller cities.** Chennai, Kolkata and Lucknow each sit under 10% of revenue; local restaurant partnerships and delivery-fee waivers could lift them.
3. **Build on biryani.** Feature the top biryani restaurants on the home screen and add combo deals for North Indian and pizza.
4. **Lift desserts and healthy food.** Together they are 5.9% of revenue; pairing them with main-course orders is the cheapest way to raise order value.
5. **Cut cancellations.** At 5.7%, each cancelled order is lost revenue; review the cities and slots where cancellations cluster.

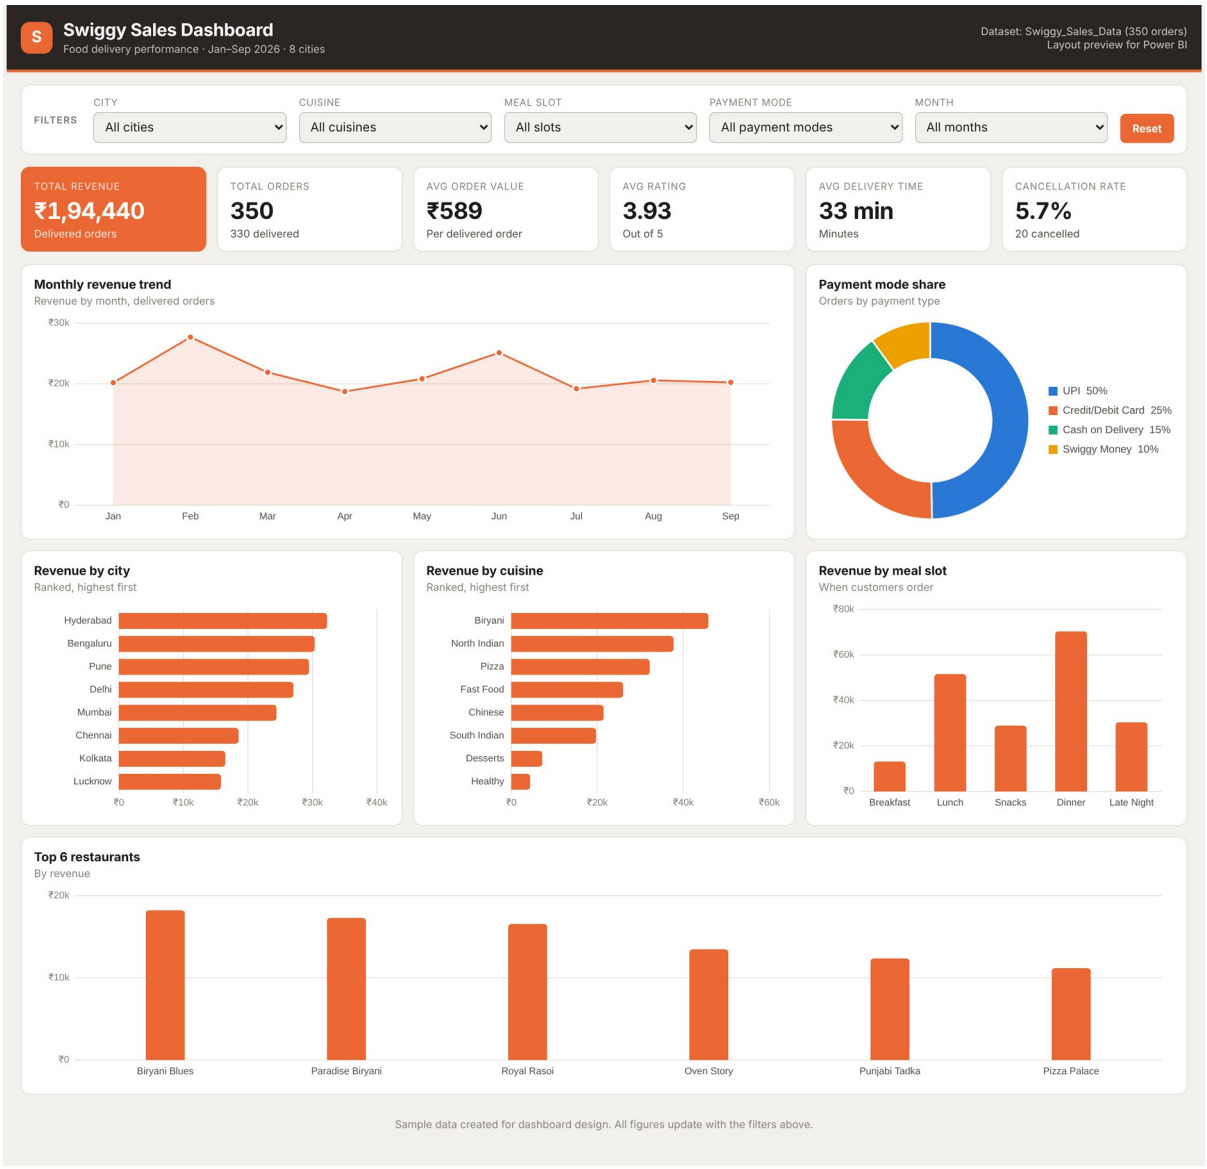

About the data

The figures come from Swiggy_Sales_Data, a sample dataset of 350 orders (January to September 2026) across 8 cities, 8 cuisines and 24 restaurants, created for this dashboard project. Revenue counts delivered orders only, as the final amount after discounts and delivery fees; cancelled orders count toward order totals and payment shares but not revenue. Ratings cover delivered orders. These are not real Swiggy results.

Dashboard pages

The dashboard was built from the same 350-order dataset. Page 1 shows all cities together; every filter on the page updates the cards and all six charts at once.

- **Filters:** City, Cuisine, Meal slot, Payment mode and Month, with a Reset button.
- **Cards:** total revenue, total orders, average order value, average rating, average delivery time and cancellation rate.
- **Charts:** monthly revenue trend, payment mode share, revenue by city, revenue by cuisine, revenue by meal slot and top 6 restaurants.
- **What it shows:** revenue of ₹1,94,440 from 330 delivered orders, an average order value of ₹589, a rating of 3.93 and a 5.7% cancellation rate.

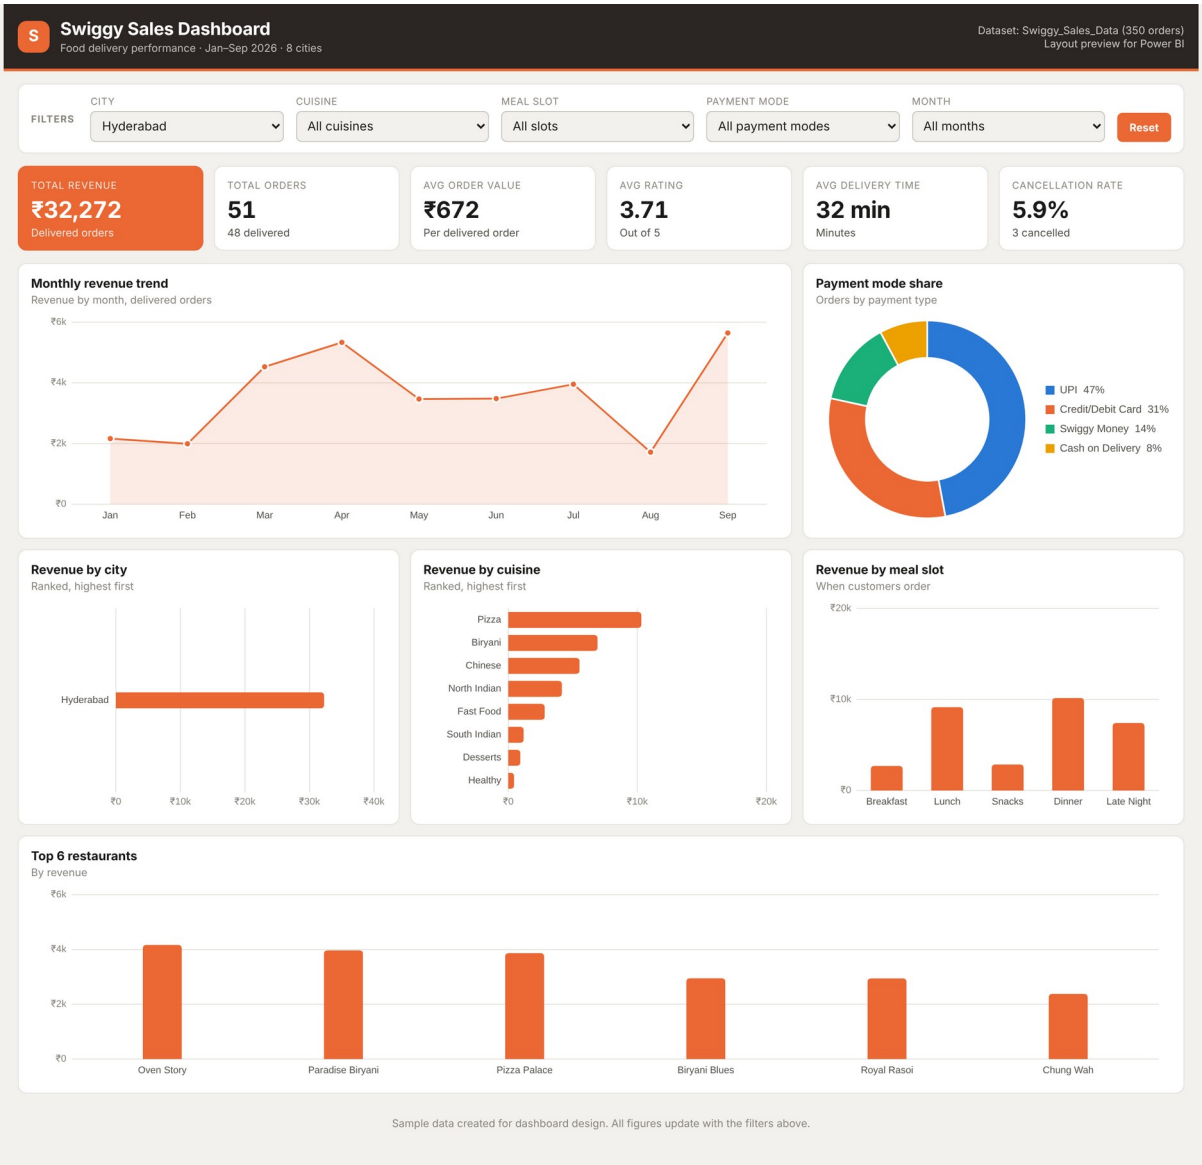

Dashboard page 1: all cities, January to September 2026

Dashboard page 2: filtered by city

With the City filter set to Hyderabad, every card and chart recalculates for that city alone.

- **Cards:** ₹32,272 revenue from 51 orders (48 delivered), an average order value of ₹672, a rating of 3.71, 32 minutes average delivery time and 3 cancellations (5.9%).
- **Cuisine:** pizza leads in Hyderabad at ₹10,311, ahead of biryani at ₹6,914, while biryani leads across all cities.
- **Restaurants and slots:** Oven Story is the top restaurant at ₹4,167, and dinner is the best slot at ₹10,162.
